

# Wallace® Sure-Pro™ & Sure-Pro Ultra™ Catheters

## Ultrasound Visible Embryo Transfer Catheters

Soft hand-crafted tip designed to facilitate a smooth passage through the cervix

Supported Wallace® Sure-Pro™ Catheter compared with Wallace Classic

Sure-Pro supplied in a procedural tray to help maintain sterility while handling

# Wallace® Sure-Pro™ & Sure-Pro Ultra™ Catheters

The Sure-Pro and Sure-Pro™ Ultra™ range of catheters feature the hand-crafted inner catheter tip of the Wallace Classic, with the added benefit of a supported inner catheter to improve control during handling.

The Sure-Pro Ultra range also features the unique echogenic properties of SureView™ technology.

- Visible under ultrasound from hub to tip
- Supported inner catheter to facilitate increased control during handling and insertion
- Pre-formed curve on outer sheath to help navigate the cervical canal
- Adjustable silicone marker for depth guidance and tip orientation
- Available with a soft obturator or firm stylet to suit various techniques and patient anatomies
- Formable outer sheath allowing for accentuation or smoothing of the pre-formed curve

## Product Configurations

### Single-stage

- Supported catheter

### Elective two-stage

- Supported catheter with flexible obturator
- The obturator is softer than a stylet and used for routine two-stage transfer

### Difficult two-stage

- Supported catheter with firm stylet
- The stylet is used for difficult transfers

## Technical Information

## Wallace® Sure-Pro™ / Wallace Sure-Pro Ultra™

Inner catheter (ID)	0.76mm
Inner catheter (OD)	1.52mm
Outer sheath (OD)	2.5mm
Volume of catheter not including hub (18cm catheter)	0.104ml (104µl)
Volume of catheter not including hub (23cm catheter)	0.0045ml (4.5µl)
Suggested loading volume	0.5 to 1cm = 2.25 to 4.5µl
Stylet (OD)	1.52mm
Stylet protrusion from outer sheath	2.7mm

## Product Configurations and Order Codes

	Item Number	Description	Echogenic	Quantity per box
Sure-Pro	PP623	Sure-Pro Embryo Transfer Catheter, 23cm, Supported, One Step Transfers	No	10
	PPB623	Sure-Pro Embryo Transfer Catheter with Soft Obturator, 23cm, Supported, Elective Two Step Transfers	No	10
	PPS623	Sure-Pro Embryo Transfer Catheter with Firm Stylet, 23cm, Supported, Elective Two Step Transfers	No	10
	PPB623X	Sure-Pro Embryo Transfer Catheter, Triple Pouched, Soft obturator, 23cm, Supported, Elective Two Step Transfers	No	10
	PPS623X	Sure-Pro Embryo Transfer Catheter, Triple Pouched, Firm Stylet, 23cm, Supported, Elective Two Step Transfers	No	10
Sure-Pro Ultra	PE623	Sure-Pro Ultra Embryo Transfer Catheter, 23cm, Supported, One Step Transfers	Yes	10
	PEB623	Sure-Pro Ultra Embryo Transfer Catheter with Soft Obturator, 23cm, Supported, Elective Two Step Transfers	Yes	10
	PES623	Sure-Pro Ultra Embryo Transfer Catheter with Firm Stylet, 23cm, Supported, Elective Two Step Transfers	Yes	10
	PEB623X	Sure-Pro Ultra Embryo Transfer Catheter, Triple Pouched, Soft obturator, 23cm, Supported, Elective Two Step Transfers	Yes	10
	PES623X	Sure-Pro Ultra Embryo Transfer Catheter, Triple Pouched, Firm Stylet, 23cm, Supported, Elective Two Step Transfers	Yes	10
