

# Embryo Biopsy & Preimplantation Genetic Testing

## Consumables for Trophectoderm Biopsy

# Consumables for trophectoderm biopsy

Choose a range of high-quality media to support and protect the embryo during biopsy, and our biopsy and holding micropipettes to help facilitate easier procedures.

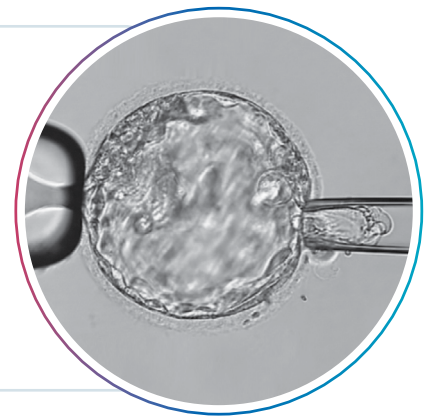

We provide handling tips for embryos and biopsied cells and offer hands-on training courses to help improve biopsy technique, use of the laser, and cell preparation for PGT.

Product	Recommended Products	Order Code
